

## Dance Notes

Each song is a curriculum in itself. It's fun to enact the Talking Hands Talking Feet methodology. Work from the lyrics and you can offer a few movement ideas to your students to give them confidence in the creative process. Show ideas of movements that might fit with the lyrics and then ask the children, "Let's see some your ideas" We often take a few examples and then choose one for each line of the song or for each idea or concept.

You are also welcome to copy ideas from the video included.

Enjoy!
